## dinWorkspace End User Guide

**Connecting Via Android** 

1. Go to the Google Play store from your Android phone and install the Microsoft Remote Desktop App

1. Once the installation is complete, open your Microsoft Remote Desktop App and click +

To get started, add the remote desktop that you want to connect to using this device. You can also add remote resources to work with apps and desktops your administrator has set up for you.

2. After clicking the + menu, select Desktop

💙 Show additional options 🚄	-

- Now go to the additional options and enter the friendly name "Demo." For the gateway address, enter: chidemo.dincloud.com. Enable:
  - Swap mouse
  - Connect to admin session
  - Redirect local storage (optional if you want to map your internal storage/SD card on the HVD)

After making all the changes, save the configuration.

Demo		:	

6. Ignore any trust and/or certificate warnings that appear. Select "Never ask again for connection to this PC" and click Connect.

7. Now you will see a new window initializing the remote connection. You will be connected to your dinWorkspace momentarily.
